## Approximation Notes

\*Indicates data drawn from CFI TRAFx recorders, with data gap and early/late season infills from either previous years or nearby peak data. All other estimates are interpolated from a correlation between TRAFx data and reported 14ers.com peak use statistics.

<sup>^</sup>Indicates National Park Service trailhead counter data adjusted for summit success rate based on prior studies.

Range and overall totals are adjusted to account for the frequent practice of summiting multiple peaks in one day.
