

CFI's Priority Peaks and Trail Maintenance Schedule, 2025

Please consider serving as many days as possible on these peaks. They either have heavy use or trail crews working there this season. It is helpful to the trail crews if a Peak Steward is onsite to talk with hikers. It provides an opportunity to talk about the work of CFI and the Peak Steward program. Saturday is typically the busiest hiking day and trail work is often above treeline.

Peak (routes)	Trailwork dates	Notes
Mt. Bierstadt (Guanella Pass)	Maintenance Crew: 6/24- 7/1 Fixed-Site Crew: 6/17-6/24, 7/1-7/8, 7/15-7/22	CFI completed a sustainable route in 2016. Bierstadt sees up to 35,000 hiker-use days per year.
Mt. Blue Sky (Summit Lake)		N/A- Highway CLOSED for season
